PROJECTS

Project 1: Personal Portfolio Website
Created a personal portfolio website to showcase web development skills, including custom WordPress theme development, project display, and contact forms.

Project 2: Small Business Website
Designed and developed a responsive website for a local business using HTML, CSS, and JavaScript. Integrated a WooCommerce shop for eCommerce functionality.

INTERESTS

Web Design & Development

Learning new technologies & frameworks

Digital Marketing and SEO

PROFILE

Motivated web development student with a strong foundation in HTML, CSS, JavaScript, and WordPress. Eager to contribute my skills and grow in a real-world development environment. I am passionate about creating dynamic, responsive websites and looking for an internship to expand my knowledge and experience.
